

Project Scheduling Professional (PMI-SP)[®] Certification Preparation Workshop

Duration: 5 days / 30 hours

Synopsis

To ensure project success, project managers must be leaders who identify and meet team needs in order to achieve project objectives. In this course, you transition to a leader who can inspire a diverse team to work together and deliver customer success. At the end of your classroom experience, you take away project leadership best practices handbook and a personal development plan for use back at the office

Who should apply

Project managers, project team members, functional managers who interact with organizational projects, upper level managers, and people wanting Professional Development Units (PDUs). This workshop is particularly good for people who will have to make decisions during the course of a project. Decision-makers include project managers, core team members who comprise a core or executive team, project sponsors
